Mobilising **Institutional Capital** for Sustainable Growth and Regional Impact

OVERVIEW

Africa stands at the pivotal moment in its development journey. Rapid urbanisation, demographic growth, technological advancement and the implementation of regional integration frameworks such as the African Continental Free Trade Area (AfCFTA) are creating unprecedented opportunities for economic transformation across the continent.

However, unlocking this next phase of growth requires significant long-term capital investment in infrastructure, innovation ecosystems, energy transition, digital transformation and regional trade corridors. Institutional investors—including pension funds, insurance companies, sovereign wealth funds, development finance institutions, asset managers—are uniquely positioned to play a catalytic role in financing these opportunities while achieving sustainable risk-adjusted returns.

As governments across Africa seek to accelerate economic diversification and strengthen resilience against global uncertainties, there is a growing need for stronger collaboration between policymakers, regulators, investment professionals and private sector stakeholders. Such collaboration is essential in creating investment environments that attract capital and deliver measurable developmental impact.

It is against this backdrop that **MNCapital Group**—with over two decades of experience convening leading investment forums across Africa—is proud to host the **5th Annual Eswatini Institutional Investors Forum 2026**. This platform will bring together key stakeholders from The Kingdom of Eswatini, and beyond, to explore innovative investment opportunities that will shape Africa's next growth cycle.

ABOUT THE FORUM

The Eswatini Institutional Investors Forum 2026 has established itself as one of the country premier platforms for investment dialogue and stakeholder engagement. Over the years, the Forum has brought together institutional investors, regulators, policymakers and investment professionals to discuss emerging opportunities and challenges within the Kingdom's investment landscape.

The 5th Annual Eswatini Institutional Investors Forum 2026 will focus on how institutional capital can be mobilised to support infrastructure development, innovation-led growth and regional economic integration while strengthening portfolio performance and long-term sustainability.

Participants will gain valuable insights into macroeconomic developments, investment trends, regulatory developments and innovative financing models shaping Eswatini, Southern Africa, and the broader African continent.

WHY ATTEND?

The Forum offers participants an opportunity to:

- **Engage** with leading pension funds and retirement funds from across Southern Africa
- **Network** with senior executives from Development Finance Institutions (DFIs) and Multinational Development Banks
- **Explore** investment opportunities in infrastructure, energy, private markets, digital infrastructure, and regional development projects
- **Gain** insights from regulators, policymakers, and market leaders on the future of institutional investing
- **Learn** about innovative investment structures, blended finance solutions, and risk mitigation mechanisms
- **Participate** in exclusive networking sessions and investor roundtables
- **Connect** directly with project sponsors seeking institutional capital
- **Build partnerships** that support sustainable economic growth and long-term value creation.

Mobilising Institutional Capital for Sustainable Growth and Regional Impact
